

Cable Stripper Bronneberg Kab-W

Cable Stripper Bronneberg Kab-W

The Cable Stripper Kab-W is a heavy-duty cable stripper for the processing of heavy PVC and armoured ground / grease cable. Because of the single suspension of the wheels it's a relatively light weight machine that's able to strip even the toughest cable. The infeed system and the special developed wheels ensure that even the most complicated cables can be stripped in one pass. The cable is guided over the adjustable knife for perfect cutting.

Hydraulic adjustment for different cable diameters

Maximum safety

Operator friendly

Stripping of armoured Cable

Low maintenance

Power pack: Electric 400 Volt - 11 kW
Cutting capacity: 30 - 180mm
Weight: 1.100 Kg

Cutting speed: Max. 10 m/min
Dimensions: 1.700 x 1.700 x 1.700 mm
